SARDEGNA FORMED

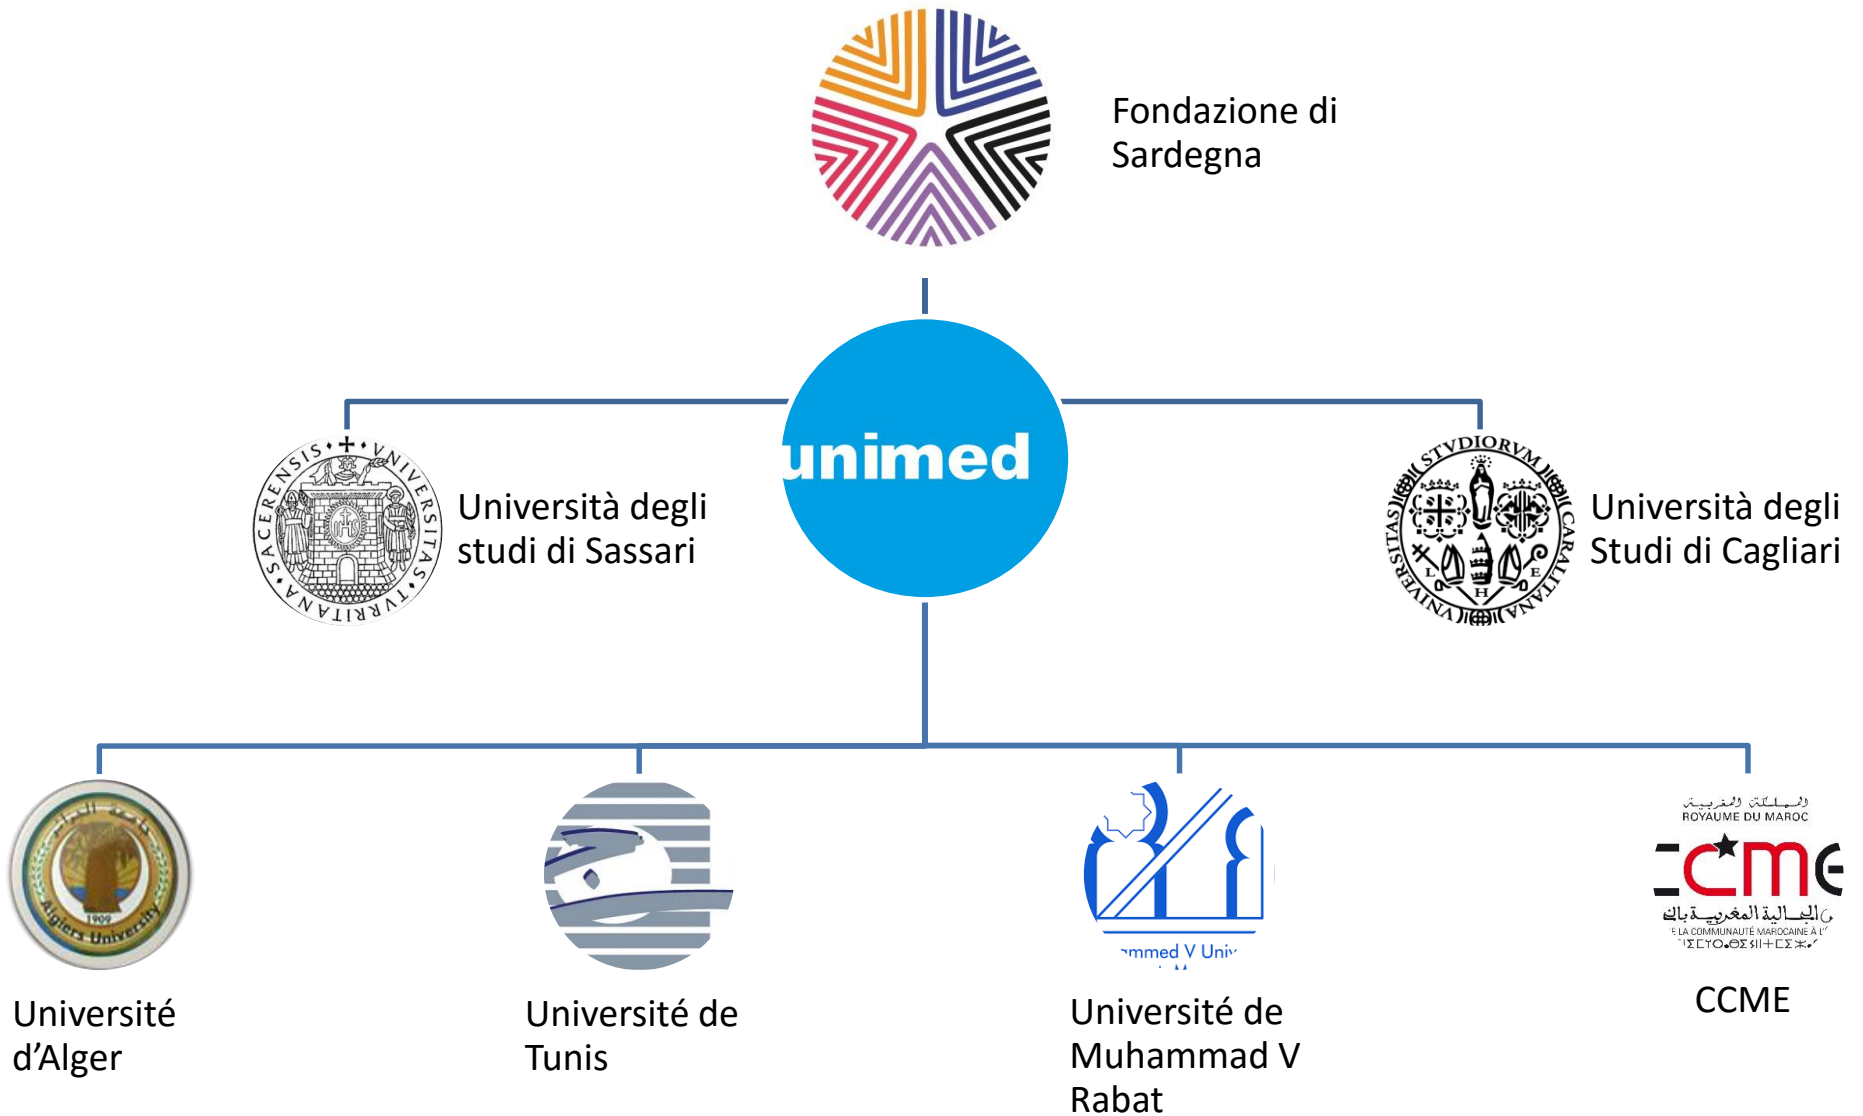

Fondazione
di Sardegna

The commitment for the Mediterranean

- La Fondazione di Sardegna considers the attention to the South of the Mediterranean as one of the priorities in its territorial development action. This is because of a common set of traditions, especially because of common opportunities that can, together, seize both the immediate present, in the near future.
- Practical demonstration of this interest was the signature of the Memorandum of Understanding “Sardegna Terra di Mezzo” together with UNIMED

The Partnership

Data and Statistics

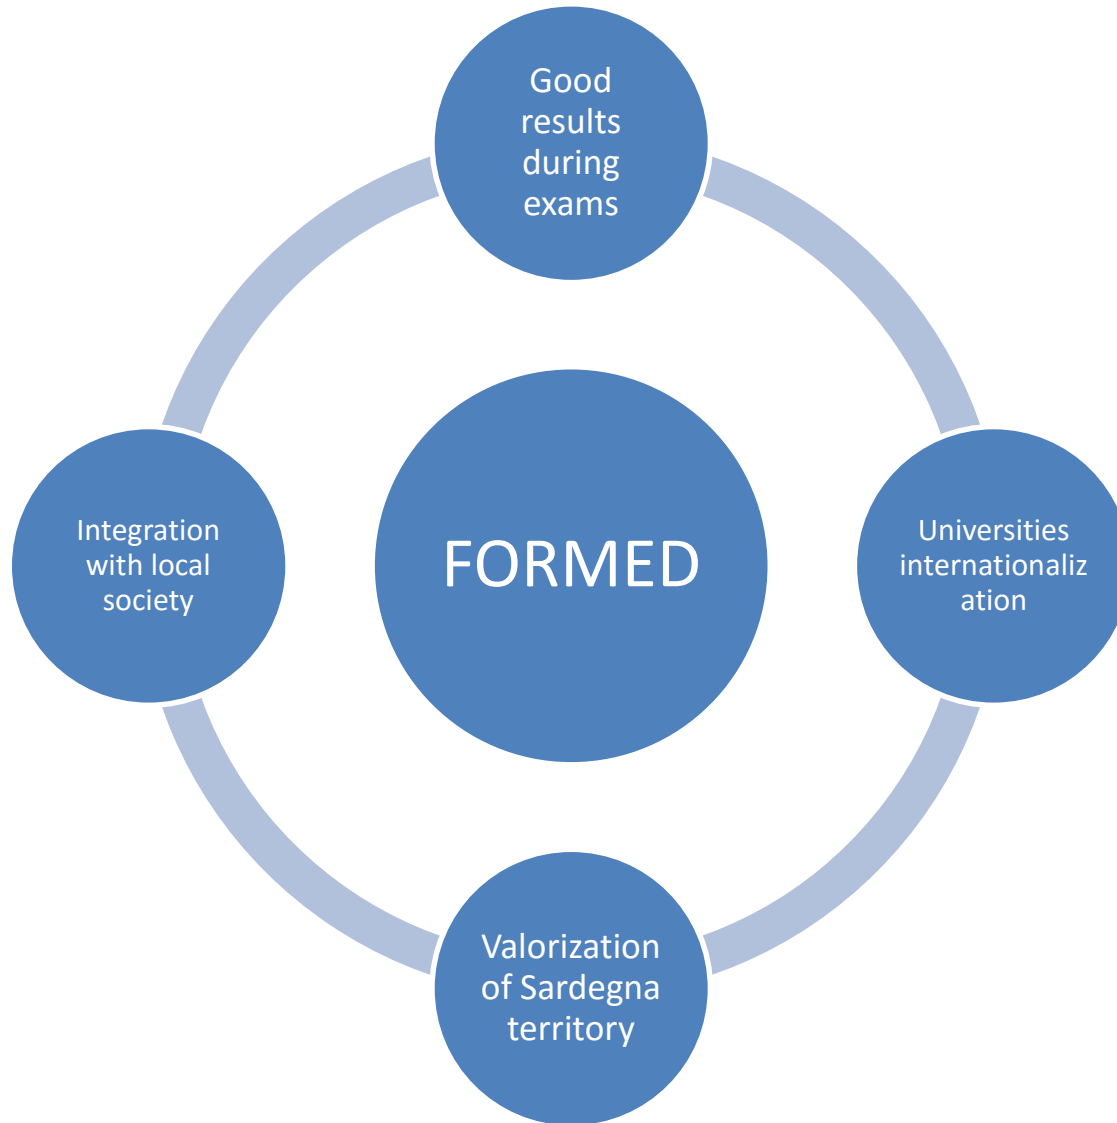

Funds= € 658.000

Scholarships = 100

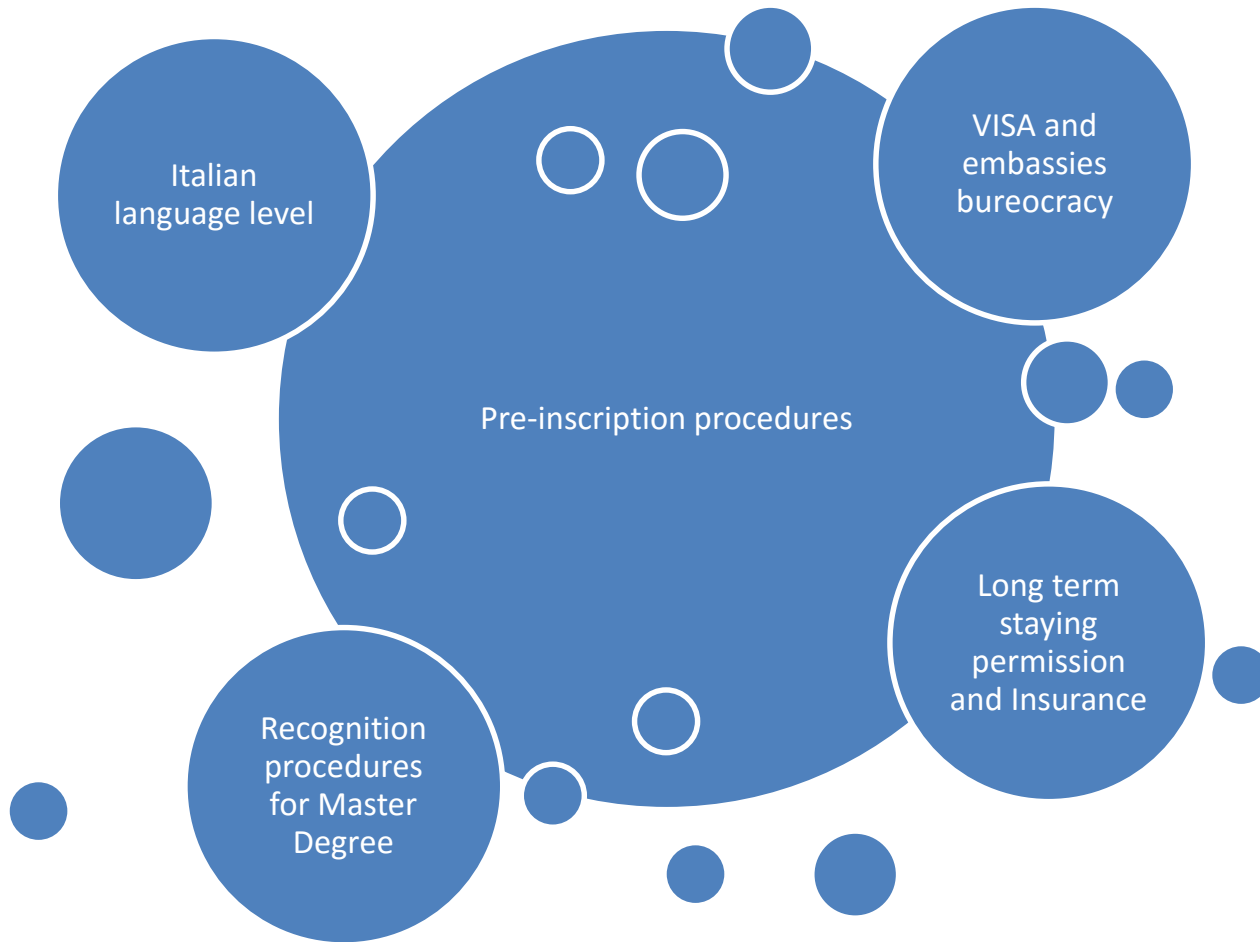

Exams results =27/30

Failure percentage (April 2016) = 7%

Results 2015/2016

Mobility obstacles

Collateral initiatives
